

Excel VBA 最初の空白でないセルを返す

[Excel VBA][Excel]

```
Function FindFirst(cells As Range)
    Dim r As Long
    Dim c As Long
    Dim ret As Range
    Dim hit As Boolean

    hit = False
    For r = 1 To cells.Rows.Count
        For c = 1 To cells.Columns.Count
            If cells(r, c).Text <> "" Then
                Set ret = cells(r, c)
                hit = True
                Exit For
            End If
        Next
        If hit Then
            Exit For
        End If
    Next
    Set FindFirst = ret
End Function
```
