- <http://docs.oracle.com/javase/tutorial/uiswing/components/filechooser.html>

例

```
JFileChooser chooser = new JFileChooser();
FileNameExtensionFilter filter
    = new FileNameExtensionFilter(
        "Zip or Text File", "txt", "log", "zip");
chooser.setFileFilter(filter);
chooser.setMultiSelectionEnabled(true);
int returnVal = chooser.showOpenDialog(parent);
if(returnVal == JFileChooser.APPROVE_OPTION) {
    File[] selectedFiles = chooser.getSelectedFiles();
    for (File f : selectedFiles) {
        System.out.println(f.getName());
    }
}
```
